

# Community Appearance Board Site Lighting Review Application

*In order for a final review submission to be accepted by Construction Services the following items **MUST** be included with the submission:*

1. Completion of Exterior Lighting Permit Application.
2. Site plans, drawn to scale indicating specific locations, proposed number and height of luminaries.
3. Photometric Plan showing projected lighting patterns and intensity measured in foot-candles.
4. Individual fixture cut-sheets indicating style, wattage and type of luminaire.

***I certify that this application is complete and presented as herein required. I further understand that an incomplete submission may result in the delay of the project review by the Community Appearance Board.***
