

2018-59 (2ND READING): AN ORDINANCE TO AMEND THE ZONING ORDINANCE FOR THE CITY OF MYRTLE BEACH BY AMENDING THE PUBLIC UTILITY DEFINITION, ADDING A SOLAR FARM DEFINITION, AND ADDING SOLAR FARMS AS A CONDITIONAL USE IN ALL NON-RESIDENTIAL ZONES EXCEPT IN (INSTITUTIONAL), CS (CABANA SECTION) & C-6 (URBAN VILLAGE).

Applicant/Purpose: EDF Renewables & Horry County (applicant) / to amend the zoning ordinance & the public utility definition to include solar farms as a conditional use.

Brief:

- Applicants propose a solar farm similar to that on Joe White Avenue (to include transformers w/ substation capabilities) on property west of South Kings (south of the Cemetery), now zoned PRC (Parks/Recreation/Conservation). Solar farms are not currently allowed in PRC.
- There are limited uses of this former landfill site. 3 options to allow solar farms are:
 - Rezone the property to a zone that allows such uses (as originally requested).
 - Amend the PRC text to add solar farms as a permitted use (as recommended by PC).
 - To amend the Zoning Code to allow solar farms as a conditional use in most non-residential zones (as discussed at 1st reading).
- 8/21/18: PC recommended:
 - Denial of the rezoning request from PRC to HC.
 - A text amendment to define solar farms as a separate use & apply that as a permitted use in all non-residential zones except IN (Institutional), CS (Cabana Section) & C-6 (Urban Village, were it is allowed as a supplemental use).
- This ordinance was given 1st reading as a text amendment w/ direction to staff to come back w/ a conditional use.

Issues:

- Based on discussion at the last Council meeting the proposed ordinance has been modified to allow solar farms in most non-residential zones subject to the following conditions:
 - Installation & maintenance complying w/ the International Building Code, National Electric Code & all local regulations, directives & codes.
 - Issuance of applicable permits (requires CAB approval).
 - Front street setback of 30' (or the setback of the underlying zoning, whichever >).
 - Side/Rear setbacks of 10'.
 - Structural height limit of 35'.
 - Landscape buffers of at least 1' (may include the setback), subject to CAB's approval.
 - Solar structures must meet CAB's design standards or guidelines.

Public Notification:

- For PC's public hearing: 1 sign posted. 11 letters mailed. Legal ad ran.
- For the City Council meeting: normal meeting notification.

Alternatives:

- Modify the request.
- Deny the proposed ordinance.

Financial Impact: An increase in business license revenue from EDF Renewables, & an increase in building permit revenue during construction. Santee Cooper does not pay property taxes.

Manager's Recommendation:

- I recommend 1st reading (9/25/18).
- I recommend 2nd reading & approval (10/9/18).

Attachment(s): Proposed ordinance, staff report, Comp Plan citations, zoning comparison.

CITY OF MYRTLE BEACH
COUNTY OF HORRY
STATE OF SOUTH CAROLINA

AN ORDINANCE TO AMEND THE ZONING
ORDINANCE FOR THE CITY OF MYRTLE
BEACH BY ~~AMENDING THE PUBLIC
UTILITY DEFINITION~~, ADDING A SOLAR
FARM DEFINITION, AND ADDING SOLAR
FARMS AS A CONDITIONAL USE IN ALL
NON-RESIDENTIAL ZONES EXCEPT IN
(INSTITUTIONAL), CS (CABANA
SECTION) & C-6 (URBAN VILLAGE).

IT IS HEREBY ORDAINED that the City of Myrtle Beach Code of Ordinances, Amendment A, Zoning, Article 2 (Definitions), Section 203 is amended to include a new definition, solar farm, as follows:

Section 203. Definitions

Solar Farm: an installation or area of land in which a large number of solar panels are set up in order to generate electricity as the primary use on the property; transformers with substation capabilities may be part of the design.

IT IS FURTHER ORDAINED that the City of Myrtle Beach Code of Ordinances, Amendment A, Zoning, Article 15 (Conditional Uses and Special Exceptions), is amended to include a new section, 1501.QQ, as follows:

1501.QQ. Solar Farms

1501.QQ.1. Intent. The intent of these standards is to provide for safe, attractive, orderly and functional sustainable energy options in furtherance of the goals of the comprehensive plan.

1501.QQ.2. Application. These standards shall apply to the installation and/or placement of any solar farm within the City of Myrtle Beach.

1501.QQ.3. Installation.

- a) Solar farms shall be installed and maintained in compliance with the International Building Code, National Electric Code and all local regulations, directives and codes.
- b) Installation of any solar farm shall require the issuance of any applicable permits such as building and/or electrical.
- c) Solar farms may have transformers with substation capabilities in the design and installation.
- d) A building permit shall not be issued without Community Appearance Board approval.

1501.QQ.4. Setbacks and buffers.

- a) Front street setbacks. Any solar farm installation will set back from the front street 30 feet or the front street setback of the underlying zoning, whichever is greater.
- b) Side/Rear setbacks. 10 feet.
- c) 15-foot minimum landscape buffers as required by CAB.

1501.QQ.5. Structural Height Limit. 35 feet.

IT IS FURTHER ORDAINED that that the City of Myrtle Beach Code of Ordinances, Amendment A, Zoning, Article 14 (Zoning Districts), Section 1407.C (Permitted Uses) is amended to include a new conditional use, Solar Farms, as follows:

Use Category and Type	MU-M	MU-H	C6	C7	C8	A	CG	E	HC1	HC2	MP	IN	AP	BP	LM	WM	CS	IR	PRC

6

7 **ALTERNATIVES TO APPROVAL** Recommend alternative zone

8 Recommend denial.

9

10 **FINANCIAL ANALYSIS:** Potential increase in business license fees, construction-related

11 fees.

12

13

14 **STAFF COMMENTS**

15

16 **Construction Services, DPW, Police, Fire, C&L Services, Addressing:** No concerns.

17

18 **Planning Staff:** See analysis and summary.

19 *Alternative:* add transfer stations to PRC

20 *Other options:* break down definition of transfer stations in code into

21 classifications based on conveyance.

22 **Information needed regardless of option:** Covenant Release or information

23 regarding the 60-day advance notice being relayed to the Air Force, EPA

24 and SC DHEC pursuant to Section VII of the quitclaim deed.

25

26 **ANALYSIS**

27

28 *Section 403 of the Zoning Ordinance lists the following factors, which should be part of the*

29 *information considered when evaluating requests to change the Zoning Ordinance Text or Map.*

30

31 **Section 403.A.** Whether or not the requested zoning change is [1] consistent with the

32 Comprehensive Plan or [2] is justified by an error in the original ordinance.

- 33 • **[1] Yes.** The Comprehensive Plan Future Land Use Plan shows the property
 - 34 as "industrial/civic" land. The use proposed, a solar farm, falls into the civic
 - 35 category. Other uses in the HC-2 zone, however, do not align with the
 - 36 comprehensive plan's future land use map.
 - 37 • **[2] No.** There are no known errors with regard to this application.
- 38

39 **Section 403.B.** – The precedents, and the possible effects of such precedents, which

40 might result from approval or denial of the petition.

41

- Precedence for this type of use exists in the city limits on Mr Joe White Ave. A small solar array (valued at \$500,000) was installed on the Santee Cooper property in 2010-2011.

Section 403.C. – The capability of the city or other government agencies to provide any services, facilities or programs that might be required if the petition were approved.

- **Water** is available to serve this site.
- **Sewer** is available to serve this site.
- **Street** frontage exists along S Kings Hwy.
- **Sidewalks** (part of the East Coast Greenway) exist along S Kings Hwy.

Section 403.D. Effect of approval of the petition on the condition or value of property in the city.

- Effect on subject property: increase in income potential.
- Effect on surrounding property: converts vacant land into a viable commercial use.

Section 403.E. Effect of approval of the petition on adopted development plans and policies of the City.

- **Deed Restrictions:** State law requires staff to ask if there are deed restrictions that would prohibit a planning action from going forward. Absent information from the applicant, anyone with an interest in the action can bring forth the information.
 - This property is subject to environmental and use restrictions that limit the use and how the land is handled during any future project work (page 4 of the deed). This includes the following restrictions, unless approval is received from the Air Force, EPA, and SC DHEC:
 - The Misque Dump must maintain soil cover integrity;
 - Land use may not change unless a 60-day advance notice is submitted and approved; and
 - Any grant, transfer, leases, licenses, and/or conveyance of any interest, in the property must be given a 60-day advance notice.
 - The deed restrictions allow that the original owner (the US Government) may give a modification or release “Covenant Release”) in whole or in part, subject to request from property owner, notification and concurrence or approval of the Air Force, SC DHEC, and US EPA Region IV.
 - Staff does not have knowledge of any Covenant Release in relation to this property.

- **Comprehensive Plan:** Petition could be interpreted as compatible with comprehensive plan.

State Law Reference:

SECTION 6-29-1145. Determining existence of restrictive covenant; effect.

(A) In an application for a permit, the local planning agency must inquire in the application or by written instructions to an applicant whether the tract or parcel of land is

1 restricted by any recorded covenant that is contrary to, conflicts with, or prohibits the
2 permitted activity.

3
4 (B) If a local planning agency has actual notice of a restrictive covenant on a tract or
5 parcel of land that is contrary to, conflicts with, or prohibits the permitted activity:

6
7 (1) in the application for the permit;

8
9 (2) from materials or information submitted by the person or persons requesting
10 the permit; or

11
12 (3) from any other source including, but not limited to, other property holders, the
13 local planning agency must not issue the permit unless the local planning agency
14 receives confirmation from the applicant that the restrictive covenant has been
15 released for the tract or parcel of land by action of the appropriate authority or
16 property holders or by court order.

17
18 (C) As used in this section:

19
20 (1) "actual notice" is not constructive notice of documents filed in local offices
21 concerning the property, and does not require the local planning agency to
22 conduct searches in any records offices for filed restrictive covenants;

23
24 (2) "permit" does not mean an authorization to build or place a structure on a
25 tract or parcel of land; and

26
27 (3) "restrictive covenant" does not mean a restriction concerning a type of
28 structure that may be built or placed on a tract or parcel of land.

RE: Request to rezone parcel identified by Tax Map Number (TMS) 188-00-01-320, in its entirety, from the Parks, Recreation and Conservation District to the HC2 Highway Commercial District in order to facilitate development of a solar photovoltaic electrical generation project to be owned and operated by Santee Cooper.

Dear Planning Board:

Horry County (the "County") is the owner of a 17.004 acre parcel located along Kings Highway identified by Tax Map Number (TMS) 188-00-01-320 (the "Parcel"). The County intends to lease the Parcel to Santee Cooper for the construction and operation of a 2 MW solar photovoltaic electrical generation project (the "Project"). The Project is being developed and constructed by EDF Renewables ("EDF") who was selected as the developer by Santee Cooper through competitive bid.

The County, working with Santee Cooper, and with assistance from EDF, submits this application to rezone the Parcel from the Parks, Recreation and Conservation ("PRC") District to the HC2 Highway Commercial ("HC2") District for consideration at your August 21st meeting. The Request for Rezoning Application Form and supporting materials are attached. If you have any questions or concerns, please do not hesitate to contact Allen Tate, of EDF, at allen.tate@edf-re.com or 802-359-6571.

RE: Rezoning request agency letter for Tax Map Number (TMS) 188-00-01-320

To whom it may concern:

Horry County (the "County") is the owner of a 17.004 acre parcel located along Kings Highway identified by Tax Map Number (TMS) 188-00-01-320 (the "Parcel"). The County intends to lease the Parcel to Santee Cooper for the construction and operation of a 2 MW solar photovoltaic electrical generation project (the "Project"). The Project is being developed and constructed by EDF Renewables ("EDF") who was selected as the developer by Santee Cooper through competitive bid. The County hereby authorizes EDF Renewables to prepare and submit a Request to Rezone the Parcel from the Parks, Recreation and Conservation ("PRC") District to the HC-2 Highway Commercial ("HC-2") District. The County further authorizes EDF Renewables to speak in support of the County's request at any Planning Department, Planning Commission, or City Council meetings.

Respectfully,

Horry County

AUGUST 2006

REQUEST FOR REZONING APPLICATION

This is an application to request an amendment to the Zoning Map of the City of Myrtle Beach, South Carolina. All information contained in this application is subject to public disclosure under the South Carolina Freedom of Information Act (FOIA).

TYPE OR PRINT all answers on this application. Attach any additional information requested to complete this application. There is a five hundred dollar (\$500.00) non-refundable fee for this application. (Cash or check payable to "City of Myrtle Beach".)

The following items are required to process a request for rezoning:

- ☒ A completed rezoning request application, signed by the property owner(s) or agent authorized to request a rezoning.
- ☒ If property owner(s) are not representing themselves, authorization for an agent to act on behalf of the property owner must be submitted.
- ☒ A written legal description (metes and bounds) of the property.
- ☒ Recent (within 6 months) boundary survey of property: 38 paper copies no larger than 11" X 17" and a digital copy in either .pdf or .jpeg format. Staff may accept other property description instruments (i.e. plats or surveys) at their discretion.
- ☒ Copy of deed(s) proving ownership of property.

Requests for rezoning are considered by the Planning Commission at their regularly scheduled meeting (the third Tuesday of the month). To be placed on the Planning Commission's agenda, the completed rezoning application and all additional requested materials must be submitted to the City of Myrtle Beach Planning Department (located on the first floor of City Hall) by 5:00 p.m. on the date of the deadline. A deadline schedule is available from the Planning Department upon request. The recommendation of the Planning Commission will be forwarded to City Council for final action. **This application in no manner implies approval or acceptance of the proposed rezoning request by the City of Myrtle Beach nor does the City waive its right and privilege to deny such application.**

Public Hearing: Regulations require that this application be given a public hearing. Notification of the public hearing will be in the form of advertisement in a local newspaper, public hearing sign(s) posted on the property, and letters mailed to property owners within 300 feet of the property.

Withdrawal Policy: Complete applications will be processed by the Planning Department. At the written request of the applicant, PRIOR TO PUBLIC NOTIFICATION, an application may be continued, tabled or withdrawn. Once the public has been notified of the public hearing, the application request shall be placed on the agenda. During the public hearing, the applicant may request that the item be continued or tabled. Should the applicant wish to remove the request from the agenda after public notification but prior to the public hearing, the applicant must withdraw the application in writing. Once an application is withdrawn the file is closed. Another application, along with any applicable fees, may be submitted at a future date.

If there are any questions regarding rezoning policies and procedures, or if you need assistance in completing the application please contact the Planning Department at:

MEMORANDUM IN SUPPORT OF REZONING OF PARCEL 188-00-01-320

Santee Cooper has entered into arrangements with Horry County (the "County") to lease a 17.004 acre parcel located along Kings Highway identified by Tax Map Number (TMS) 188-00-01-320 (the "Parcel"). The Parcel contains a closed landfill. Santee Cooper intends to construct a 2 MW solar photovoltaic electrical generation project (the "Project") on the landfill portion of the closed landfill using ballasted mounting system that would not penetrate the cap. The County is requesting that the Parcel be rezoned to the HC2 Highway Commercial ("HC2") District. The Project would be a permitted use in the HC2 District under the Myrtle Beach Zoning Ordinance. Rezoning the Parcel is conducive with the future land use recommendations of the Myrtle Beach 2011 Comprehensive Plan ("CP"). Rezoning of the Parcel and construction of the Project would also further various goals and recommendations of the CP. Furthermore, construction of the Project would be beneficial to Myrtle Beach (the "City").

I. Background Information

The Project: In March of 2018, Santee Cooper issued a Request for Proposals ("RFP") for the design, installation, operation, commissioning and maintenance of the Project. EDF Renewables ("EDF") was awarded the contract for the Project and is now managing the permitting process for the Project. EDF has extensive experience designing and constructing solar facilities on landfills and has recently completed construction of the largest capped landfill solar array in the country. The projected useful lifespan of the Project is 30-35 years.

The Parcel: The Parcel is the site of the former Myrtle Beach Airforce Base Misque Dump which was closed prior to the sale of the property from the federal government to the County in 2008. The Parcel is subject to certain environmental and use restrictive covenants necessary for the protection of human health and safety and the federal government's warranty to conduct any future required remedial actions with regards to hazardous waste. Typical of closed and covered landfills, the top portion has been kept free of tree growth to prevent any disturbance to the surface layer which could result in water infiltration and escape of landfill gas. The Parcel is currently zoned in the Parks, Recreation, and Conservation ("PRC") District. See *Exhibit 4, Relevant Portion of the Myrtle Beach Zoning Map*. The Parcel is not currently utilized for recreational purposes or as part of any park or conservation project. The Parcel is enclosed by a perimeter fence and locked gate.

II. Rezoning to HC2 is conducive with the CP's proposed future use for the Parcel.

The CP calls for development in the Parcel's PRC District: The CP currently identifies the existing land use for the Parcel and neighboring parcels as "Undeveloped." See Exhibit 5, Figure 18 of the CP: Planning Area VI Existing Land Use Map. The CP recommends that the Parcel and neighboring parcels to the north be developed for Office Professional use. See Exhibit 6, Figure 19 of the CP: Planning Area VI Proposed Land Use Map. To facilitate this development, the CP also recommended the extension of Harrelson Boulevard to South Kings Highway, a step the City has since taken. Under the CP, Ocean Woods Cemetery would be the primary green space in area southeast of the airport.

Rezoning to the HC2 District would further the future land use recommendation of the CP: According to the CP, current office professional uses in Myrtle Beach are "concentrated primarily along Oak Street, the office developments between 38th and 48th Avenues North and offices near the Grand Strand Regional Medical Center." See CP, Page 145. Under the current zoning map, those areas are either zoned as Medical/Professional District ("MP") or Mixed Use, Medium Density ("MU-M"). Given those development patterns, it would seem that an MU-M or and MP District would be appropriate district classifications to encourage Office Professional use. Between the MU-M and MP, the MU-M district would be more conducive to encouraging Office Professional use because it would allow for amenities that compliment Office Professional development, such as coffee shops, pharmacies, and restaurants. However, properties located along South Kings Highway, including the properties neighboring the Parcel, are typically zoned as HC2. Zoning the Parcel as MU-M would cause the Parcel to have a zoning district isolated from neighboring properties. However, Section 1904 of the City's Zoning Code allows properties fronting Kings Highway zoned HC2, at the owner's discretion, to be developed in accordance with the rules and regulations of the MU-M District. Thus, rezoning the Parcel to HC2 would further the recommendations of the CP by using the MU-M standards to promote Office Professional use development, but maintaining zoning consistency with other properties along Kings Highway.

Construction of a solar facility on the Parcel would not create an impediment to Office Professional use: The existence of the closed landfill on the Parcel is a major impediment to onsite and neighboring development of Office Professional use. Onsite, construction of buildings or parking areas on closed landfills is extremely difficult because of issues relating to landfill gas buildup in an enclosed buildings and subsurface integrity. While these challenges may be overcome, doing so comes with significant cost, therefore the Parcel would likely be one of the last properties developed in the area, if the Parcel were developed at all. The Project would not encounter such difficulties because the ballasted support system does not penetrate the ground or and sufficiently disperses the limited weight of the system to avoid problems with surface instability. With regards to neighboring development, the lackluster appearance of the Parcel and the notion of building next to a landfill is also impediment to development. Construction of the Project could help resolve these impediments. The Project would comply with

screening and landscaping requirements along Kings Highway, thus improving the appearance of the Parcel. Also, in today's social climate, buildings abutting a solar farm are generally better regarded than buildings abutting a landfill. And lastly, the financial model of the Project is based on a 30-35 year life span. After that time, the Project can be removed from the Parcel. During that period, issues regarded to landfill gas and subsurface integrity will have improved, thus the Parcel will have enjoyed productive use while its suitability for Office Professional use has improved. Therefore, the Project is more likely to promote the recommendations of the CP than it is to create an impediment to those recommendations.

Rezoning the Parcel to HC2 would not improperly island the remaining portions of the PRC District: Rezoning the Parcel to HC2 would leave a small portion of the neighboring parcel, Tax Map Number (TMS) 186-00-01-317, in the PRC District. The CP recommends this property is also used for Office Professional use. Furthermore, the remaining PRC section of this property is already islanded from any connectivity that the Parcel would provide because of the existing fence around the Parcel.

III. Rezoning the Parcel facilitates other goals of the CP.

Construction of the Project would further certain recommendations with regards to sustainability: The subtitle of the CP is "Becoming a Sustainable City" and sustainability with regards to long term social, economic, and environmental health is a prevalent theme in the CP. The City acknowledges that according to the Policy Guide for Planning for Sustainability (American Planning Association 2000), reduction in the dependence upon fossil fuels by promoting alternative energy, such as solar power, is an action that can be taken in support of sustainability. See CP Page 143. With this acknowledgement in place, a number of recommendations made in the CP specifically reference the development of solar energy itself and the prioritization of alternative energy sources when planning neighborhoods. In the Neighborhoods section of the CP, recommendation item 1 calls for the City to "[c]ontinue to make sustainability a priority when planning and revitalizing neighborhoods." See CP at page 129. The CP recommends achieving this goal by giving attention to "alternative energy sources such as solar power." *Id.* In the Land Use section of the CP, recommendation item 28 calls for the City to "[r]educe the city's carbon footprint." See Page 161- 162. In this item, the CP acknowledges that solar power is part of a strategy to achieve the recommendation. Rezoning the Parcel to the HC2 District would permit the Project to be constructed on the Parcel as a permitted use.

The Project would further the recommendation to work with utility companies to provide for energy alternatives: In the Community Facilities and Services section, the CP states that "[a]lternative energy sources are available and should be utilized such as solar and wind energy." See CP at page 98. Recommendation item 16 of that section also directs the "City Manager's Office continues to work with Santee Cooper and other public utilities to reduce our reliance on oil and gasoline and to provide for energy conservation and alternatives such as LED street lighting, solar panels and wind energy." See CP at Page 110. This Project represents an opportunity for the City to follow the spirit of the CP

recommendation to bring alternative energy to the City and reduce the City's dependency on fossil fuels. Placing power generation near electrical load centers is particularly efficient with regards to electrical delivery. However, due to generally high real estate prices in the City, locating such generation facilities is generally not feasible. The Parcel is a unique opportunity as the challenges created by the presences of the landfill and proximity to the airport make it less desirable for traditional development. The County and Santee Cooper have worked for several years to develop an arrangement mutually beneficial arrangement and resolve issues related to Federal Aviation Agency ("FAA") technical requirements. The rezoning of the Parcel would be an opportunity for the City to capitalize on a unique opportunity to benefit the entire community.

Construction of the Project would further the CP's recommendation for the development of vacant lots. In the Neighborhoods section of the CP, recommendation item 21 calls for the City to "Continue working to improve vacant lots and large undeveloped tracts of land." See CP at page 132. In this recommendation item, the CP directs the Planning Department to guide private development to create new developments with appropriate community facilities that will meet neighborhood needs without creating additional problems. *Id.* Rezoning the parcel and subsequently construction of the Project would place a challenging vacant lot into productive use. The Project would not create any additional demands on services, but rather would benefit local services by helping to reduce community electrical prices through the diversification of Santee Cooper's electricity supply and increased reliability by bringing electrical generation closer to the load area.

IV. The Proposed Project would benefit the entire Myrtle Beach Community

The Project represents an excellent opportunity for the City to efficiently benefit from solar generated electricity. The Project represents an excellent opportunity for Santee Cooper to incorporate solar into its portfolio for the purpose of reducing electricity costs, diversifying its energy mix, and increasing its experience with what is becoming a rapidly expanding means of electrical generation. As a utility scale project, the Project would generate solar electricity at a less expensive rate than residentially produced solar electricity. Furthermore, as currently proposed, electricity from the Project would be nearly at par with the avoided cost Santee Cooper incurs when it either builds its own fossil fuel electricity generating plants or purchase fossil fuel electricity from independent producers on the wholesale market. Thus, this Project would allow Santee Cooper to deliver the benefits of solar produced electricity to its customers.

The electrical load profile of the City, shown in Figure 1 below, is particularly well suited for solar generation. In summer, the City's electrical load begins to increase sharply between 9am and 10am and then continues to increase steadily through the course of the afternoon. The output of a solar facility also begins to increase dramatically during that time. The similar matching of the morning curve can help Santee Cooper avoid tapping into other more expensive load sources during the summer peak demand period.

Figure 1: Electrical load profile of Myrtle Beach and projected load profile of a 1.5MW solar array (not the proposed Project).

The location of the Project is also particularly beneficial to Santee Cooper and its customers. Building electrical generation near a large electrical load, such as the City, is very efficient. Currently, most of the City's electricity comes from remote locations such as the Rainey natural gas plant in Anderson, the Cross coal power plant near Pineville, and when the load is heavy, like on summer afternoons, from the Winyah coal power plant in Georgetown. Producing electricity near the load center, particularly on summer afternoon when demand is greatest, helps reduce transmission costs and electrical loss from long distances transport.

V. Conclusion

Rezoning the Parcel to facilitate the construction of the Project would further the recommendations of the CP and benefit the broader Myrtle Beach Community. Choosing the HC2 District would maintain zoning consistency in the area.

San Antonio, Texas 78226

STATE OF SOUTH CAROLINA

COUNTY OF HORRY

QUITCLAIM DEED

I. PARTIES

THIS INDENTURE, made between the UNITED STATES OF AMERICA, acting by and through the Secretary of the Air Force, under and pursuant to the powers and authority contained in Section 2832 of the Act of Congress approved October 23, 1992 (The National Defense Authorization Act for Fiscal Year 1993, Public Law 102-484), hereinafter referred to as GRANTOR, and HORRY COUNTY, a political subdivision of the State of South Carolina, as assignee of all right, title, interest and estate of the SOUTH CAROLINA PUBLIC SERVICE AUTHORITY, an agency of the State of South Carolina, pursuant to the Partial Assignment of Exchange Agreement recorded in the office of the Register of Deeds in Book 1900 at page 975 on November 12, 1996, as GRANTEE, whose address is P.O. Box 1236, Conway, South Carolina 29526. When used in this Deed, unless the context specifies otherwise, "Grantor" shall include the assigns of the Grantor, and "Grantee" shall include the successors and assigns of the Grantee.

II. CONSIDERATION AND CONVEYANCE

WITNESSETH THAT, pursuant to Section 2832 of Public Law 102-484, the Secretary of the Air Force may convey all or any portion of that tract of land consisting of 3,744 acres known as Myrtle Beach Air Force Base, South Carolina, to the State of South Carolina in exchange for conveyance by the State of South Carolina of that tract of land known as Poinsett Air Force Range, and other tracts of land contiguous with Poinsett Air Force Range, South Carolina;

NOW THEREFORE, the Grantor, for and in consideration of the conveyance to it of a portion of said Poinsett Air Force Range and a portion of certain land contiguous with Poinsett Air Force Range, does hereby remise, release and forever quitclaim unto the said Grantee, its successors and assigns, subject to the exceptions, reservations, restrictions and conditions hereinafter expressed and set forth, all the right, title, interest, claim or demand which the Grantor has or may have had in or to the following described property and improvements thereon, situated on the Myrtle Beach Air Force Base, lying and being in Horry County, South Carolina, containing 17 acres, more or less, and being more particularly shown and designated as "Excluded Site LF-32 17.004AC.+_", on a Boundary Survey of "Phase I and Tract "B" Phase 1A Myrtle Beach Air Force Base Subdivision", (Map No. 20-2-19), prepared by Les H. Bodkin III (P.L.S. No. 14182) for the Horry County Department of Airports, City of Myrtle Beach,

Horry County, South Carolina, dated April 2, 2001, and recorded July 21, 2003 in Plat Book 191, Page 27, Horry County Clerk's Office, which is at Exhibit A.

The Property is a portion of the property conveyed to the United States of America by deed of the Town of Myrtle Beach, South Carolina, a Municipal Corporation, dated November 17, 1955, and recorded in the Office of the Register of Mesne Conveyances for Horry County in Deed Book 169 at page 177, and by Corrective Deed of The City of Myrtle Beach, South Carolina, a Municipal Corporation, dated September 21, 1978, recorded October 19, 1978, in Deed Book 625, page 353, records of Horry County.

III. APPURTENANCES AND HABENDUM

TOGETHER WITH all and singular the rights, members, hereditaments, and appurtenances to such premises belonging or in anywise incident or appertaining: to have and to hold all and singular such premises unto the Grantee forever, in fee simple (which, together with the premises described above, are called the "Property" in this Deed).

IV. RESERVATIONS

The United States has reserved access to the Property in the Section VI.C. of this deed in order to perform any remedial or corrective action as required by CERCLA Section 120(h)(3)(A)(iii).

V. CONDITION

A. The Grantee agrees to accept conveyance of the Property subject to all covenants, conditions, restrictions, easements, rights-of-way, reservations, rights, agreements, and encumbrances, whether or not of record.

B. The Grantee acknowledges that it has inspected, is aware of, and accepts the condition and state of repair of the Property, and that the Property is conveyed, "as is," "where is," without any representation, promise, agreement, or warranty on the part of the Grantor regarding such condition and state of repair, or regarding the making of any alterations, improvements, repairs, or additions. The Grantee further acknowledges that the Grantor shall not be liable for any latent or patent defects in the Property, except to the extent required by applicable law.

VI. COVENANTS RELATED TO SECTION 120(h)(3) OF THE COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION AND LIABILITY ACT (CERCLA) (42 U.S.C. § 9620(h)(3))

A. Property Covered by Access Rights and Covenants Made Pursuant to Section 120(h)(3)(A) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(3)(A))

For the Property, the Grantor provides the following covenants and retains the following access rights:

B. Covenant Pursuant to Section 120(h)(3)(A)(ii) and (B) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. §9620(h)(3)(A)(ii) and (B)):

Pursuant to Section 120(h)(3)(A)(ii) and (B) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(3)(A)(ii) and (B)), the United States warrants that - -

1. all remedial action necessary to protect human health and the environment with respect to any hazardous substance identified pursuant to Section 120(h)(3)(A)(i)(I) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 remaining on the Property has been taken before the date of this deed, and
2. any remedial action or corrective action found to be necessary after the date of this Deed for contamination on the Property existing prior to the date of this Deed will be conducted by the United States.

C. Access Rights Pursuant to Section 120(h)(3)(A)(iii) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. § 9620(h)(3)(A)(iii)):

Pursuant to section 120(h)(3)(A)(iii) of the Comprehensive Environmental Response Compensation and Liability Act of 1980 (42 U.S.C. §9620(h)(3)(A)(iii)), the United States (including but not limited to Environmental Protection Agency (EPA) Region 4, and the state of South Carolina Department of Health and Environmental Control (SCDHEC), and their respective officers, agents, employees, contractors and subcontractors) retains and reserves a perpetual and assignable easement and right of access on, over, and through the property, to enter upon the property in any case in which an environmental response or corrective action is found to be necessary on the part of the United States, without regard to whether such environmental response or corrective action is on the property or on adjoining or nearby lands. Such easement and right of access includes, without limitation, the right to perform any environmental investigation, survey, monitoring, sampling, testing, drilling, boring, coring, testpitting, installing monitoring or pumping wells or other treatment facilities, response action, corrective action, or any other action necessary for the United States to meet its responsibilities under applicable laws and as provided for in this instrument. Such easement and right of access shall be binding on the grantee and its successors and assigns and shall run with the land.

In exercising such easement and right of access, the United States shall provide the grantee or its successors or assigns, as the case may be, with reasonable notice of its intent to enter upon the property and exercise its rights under this clause, which notice may be severely curtailed or even eliminated in emergency situations. The United States shall use reasonable means to avoid and to minimize interference with the grantee's and the grantee's successors' and assigns' quiet enjoyment of the property. At the completion of work, the work site shall be reasonably restored. Such easement and right of access includes the right to obtain and use utility services, including water, gas, electricity, sewer, and communications services available on the

property at a reasonable charge to the United States. Excluding the reasonable charges for such utility services, no fee, charge, or compensation will be due the grantee, nor its successors and assigns, for the exercise of the easement and right of access hereby retained and reserved by the United States.

In exercising such easement and right of access, neither the grantee nor its successors and assigns, as the case may be, shall have any claim at law or equity against the United States or any officer, employee, agent, contractor of any tier, or servant of the United States based on actions taken by the United States or its officers, employees, agents, contractors of any tier, or servants pursuant to and in accordance with this clause: Provided, however, that nothing in this paragraph shall be considered as a waiver by the grantee and its successors and assigns of any remedy available to them under the Federal Tort Claims Act.

NOTICE

BREACH OF ANY ENVIRONMENTAL USE RESTRICTIVE COVENANT IN SECTION VII. BELOW, MAY AFFECT THE FOREGOING WARRANTY

VII. ENVIRONMENTAL USE RESTRICTIVE COVENANTS AND NOTICES

A. The following environmental use restrictive covenants in this section are being created to protect human health and the environment. The Land Use Control Boundary is identified on **Exhibit B**. Prior approval of the Air Force, EPA and SCDHEC is required for any modification or termination of the Environmental Use Restrictive Covenants as set forth below in Section VII.D. Release of Environmental Use Restrictive Covenants.

1. With respect to the Misque Dump (SWMU 142), the Grantee covenants not to (1) excavate or compromise the integrity of the soil cover, unless a construction plan is submitted to and approved by the Air Force, EPA, and SCDHEC prior to implementing the work and; (2) change land use unless a 60-day advance notice is submitted to and approved by the Air Force, EPA, and SCDHEC.
2. The Grantee covenants that it shall notify and obtain prior approval from the Air Force, SCDHEC and EPA, Region 4, at least sixty (60) days before any anticipated action that may alter or negate the need for the aforementioned environmental use restrictive covenants with respect to the Property. In addition, the Grantee must notify the Air Force, SCDHEC and EPA at least sixty (60) days prior to any proposed grant, transfer, or conveyance of any interest in the property that remains subject to Land Use Controls (LUCS).
3. For the purposes of this Section VII.A, the Grantee shall also include any subsequent transferees, lessees, licensees, successors and assigns of the Grantee.

B. It is the intent of the Grantor and the Grantee that the Air Force will retain the right to enforce any restrictive covenant in this section through the chain of title, in addition to any State law that requires the State to enforce any restrictive covenant in this section. The Grantee covenants to insert all of this section in any deed to the Property that it delivers or in any lease or license. The failure of the Air Force to enforce these environmental use restrictions shall in no event be deemed a waiver of the right of the Air Force to do so thereafter as to the same violation or as to one occurring prior or subsequent thereto.

C. The warranty set forth in Subparagraph VI.B above is limited to response actions found to be necessary to protect human health and the environment from conditions existing at the time of the deed. The obligation of the United States under such warranty does not extend to response actions required as a result of an act or omission of the Grantee that either (1) introduces new or additional contamination, (2) results from a breach of any environmental restriction set forth in this deed, or (3) increases the cost of the required response action by improperly managing any contamination or contaminated soil or water existing on the Property on the date of this Deed from the United States.

D. Release of Environmental Use Restrictive Covenant(s).

1. The Grantee may request from the United States a modification or release of one or more of the environmental use restrictive covenant(s) in whole or in part in this section, subject to the notification and concurrence or approval of the Air Force, SCDHEC and USEPA Region IV. In the event the request of the Grantee for modification or release is approved by the United States, SCDHEC, and USEPA Region IV, the United States agrees to modify or release the covenant (the "Covenant Release") giving rise to such environmental use restriction in whole or in part. The Grantee understands and agrees that all costs associated with the Covenant Release shall be the sole responsibility of the Grantee, without any cost whatsoever to the United States. The United States shall deliver to the Grantee in recordable form the Covenant Release. The execution of the Covenant Release by the United States shall modify or release the environmental use restrictive covenant with respect to the Property in the Covenant Release.

2. In the event that the environmental use restrictive covenants contained in this section are no longer necessary, the United States will record any appropriate document modifying or removing such use restrictions, as appropriate.

E. Notice of Myrtle Beach AFB Unilateral Administrative Order (UAO) and Administrative Order on Consent. Myrtle Beach AFB is under a UAO, dated September 27, 1995, issued by Region IV of the United States Environmental Protection Agency pursuant to Section 3008(h) of the Solid Waste Disposal Act, commonly referred to as the Resource Conservation and Recovery Act of 1976 ("RCRA" or "Act"), as amended by the Hazardous and Solid Waste Amendments of 1984, 42 U.S.C. § 6928(h), for the investigation of environmental contamination and implementation of corrective measures to clean-up the facility. In addition, the Grantor is subject to Administrative Order on Consent 03-08-HW dated March 24, 2003 and issued by SCDHEC, that requires the Grantor to monitor and enforce the land use controls contained in VII.A of this deed.

F. Notice of Land Use Controls Implementation Plan. The Grantee hereby acknowledges receipt of a copy of the Land Use Control Implementation Plan (LUCIP) section of the Corrective Measures Implementation Work Plan (CMIWP), which includes the LUC boundary, concurrent with, or prior to, the transfer of fee title from the USAF to the Grantee.

VIII. OTHER COVENANTS

A. Asbestos-Containing Materials ("ACM"). The Grantee is warned that the Property may contain current and former improvements, such as buildings, facilities, equipment, and pipelines, above and below the ground that may contain ACM. The Grantee covenants and agrees that in its use and occupancy of the Property, it will comply with all applicable Federal, State, and local laws relating to asbestos. The Grantee is cautioned to use due care during property development activities that may uncover pipelines or other buried ACM. The Grantee covenants and agrees that it will notify the Grantor promptly of any potentially friable ACM that constitutes a release under the federal Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. §§ 9601-9675). The Grantor's responsibility under this deed for friable ACM is limited to friable ACM in demolition debris associated with past Air Force activities and is limited to the actions, if any, to be taken in accordance with the covenant contained in Section V of this Deed. The Grantee is warned that the Grantor will not be responsible for removing or responding to ACM in or on utility pipelines. The Grantee acknowledges that the Grantor assumes no liability for property damages or damages for personal injury, illness, disability, or death to the Grantee, or to any other person, including members of the general public, arising from or incident to the purchase, transportation, removal, handling, use, disposition, or other activity causing or leading to contact of any kind whatsoever with asbestos on the Property, whether the Grantee has properly warned, or failed to properly warn, the persons injured.

B. General Lead-Based Paint and Lead-Based Paint-Containing Materials and Debris (collectively "LBP")

1. Lead-based paint was commonly used prior to 1978 and may be located on the Property. The Grantee is advised to exercise caution during any use of the Property that may result in exposure to LBP.

2. The Grantee covenants and agrees that in its use and occupancy of the Property, the Grantee is solely responsible for managing LBP, including LBP in soils, in accordance with all applicable Federal, State, and local laws and regulations. The Grantee acknowledges that the Grantor assumes no liability for property damages or damages for personal injury, illness, disability, or death to the Grantee, or to any other person, including members of the general public, arising from or incident to the purchase, transportation, removal, handling, use, contact, disposition, or other activity involving LBP on the Property, whether the Grantee has properly warned, or failed to properly warn, the persons injured. The Grantee further agrees to notify the Grantor promptly of any discovery of LBP in soils that appears to be the result of Grantor activities and that is found at concentrations that may require remediation. The Grantor hereby reserves a non-exclusive easement, in its sole discretion, to undertake an investigation and conduct any remedial action that it determines is necessary on the Property.

C. Non-discrimination. The Grantee covenants not to discriminate upon the basis of race, color, religion, national origin, sex, age, or handicap in the use, occupancy, sale, or lease of the Property, or in its employment practices conducted thereon. This covenant shall not apply with respect to religion if the Property is on premises used primarily for religious purposes. The United States of America shall be deemed a beneficiary of this covenant without regard to whether it remains the owner of any land or interest therein in the locality of the Property.

D. Hazards to Air Navigation. Prior to commencing any construction on, or alteration of, the Property, the Grantee covenants to comply with 14 C.F.R. Part 77 entitled "Objects Affecting Navigable Air Space," under the authority of the Federal Aviation Act of 1958, as amended.

E. Drinking Water Notice. Grantee is hereby given notice that the investigation of the shallow groundwater at this site discovered naturally occurring dissolved metals at concentrations that exceed U.S. EPA Safe Drinking Water Act regulations maximum contaminant levels and/or risk-based concentrations for drinking water.

F. Wetlands. The property contains an area of probable wetlands, protected under Federal and State laws and regulations, in the western portion of the property. The Grantee covenants to be responsible for completing an area-specific detailed wetlands delineation to the United States Army Corps of engineers under an actual reuse proposal to support an application for a Clean water Act Section 404 permit or to determine conclusively that a permit may not be required for a certain activity.

IX. MISCELLANEOUS

A. Each covenant of this Deed shall be deemed to touch and concern the land and shall run with the land.

X. LIST OF EXHIBITS

The following Exhibits are attached to and made a part of this Deed:

Exhibit A – Property Description Map (Excluded Site LF-32)
Exhibit B – Environmental Restriction Site Plan

WITNESS the execution hereof at the direction of the Secretary of the Air Force, the day and year first above written. September 30, 2008
