

Motion M2021-25 to accept a donation in the amount of \$6,000 from over 100 individual donors to purchase a small quarter pipe for the Matt Hughes Skateboard Park. No match required.

This funding is designated to purchase a small quarter pipe for the Matt Hughes Skateboard Park. Over one hundred individual donors contributed to the Small Quarter fund and raised the money within five days. Recreation had a goal in mind and the community stepped up and accomplished it. The quarter will challenge veteran skaters, giving the street side more flow. It will give new skaters the confidence to drop in and progress faster. It will slow the skaters down and stop them from running into the fence, helping with the maintenance of the park. All in all this feature will bring fresh life to the skate park and continue to push the community to take care of their park.
